

PROOF BEFORE DONE

My AI agent cannot say "done" any more

A gate refuses the word until a check passes.

Agents round up

"Done" meant I wrote it, not I checked it.

One line per plan

What must be true when this is finished?

A script runs that line

If it fails, the word done is refused.

Say it only with the right proof

LIVE

Opened the live page

TESTED

Ran it, saw output

FIXED

Failing case now passes

TRACKING
ON

Hit seen in debug view

Your done checklist

- 01 Write what you will call done
- 02 Check it at its real source, today
- 03 Write what you ran and what you saw
- 04 Put a date on every number
- 05 Break it once and watch the check fail

A check never seen to fail is not a check.

— MAKE IT GO RED, THEN GREEN
